PROPERTY MANAGEMENT

Hello Owners and Board of Directors,

GREAT NEWS! We are in the process of upgrading your computer software for your HOA/POA. What does this mean?

You will have the following: 24/7

- 1. Access to an online portal to make payments.**
- 2. Access to review your account activity.**
- 3. Able to review your invoices/statements.**
- 4. Submit ARC Applications online.**
- 5. Clubhouse rentals online, if applicable.**
- 6. The Board of Directors will be able to review applications online and respond. Making this process faster.**

New software will be installed shortly. We have already begun classes on how to use the software and new programs. Our goal is to have all installed, training completed and information sent out by May 1, 2023

Respectfully yours,
Semper Fi Property Management, LLC
